

KAMIC PRE-TERMINATED ODF 2 U

Optical distribution frames

Arctic pre-terminated optical distribution frames for reliable connections. No internal splices resulting in higher performance. Trusted and used by FTTH installers for several years, meeting the requirements of modern networks.

- 24, 48, 96 or 192 (LC only) fibers
- Height: 2 U, Width: 19", Depth: 310 mm
- Available with different adapters in the same frame
- Tube or GASQBDUV cable in both standard and customer defined lengths, left or right
- Individually labeled connections, both outside beside adapters and inside on connectors
- Tested, optically inspected and documented

Polish	UPC		APC	
	Max	Average	Max	Average
Insertion loss (dB)	0.20	0.10	0.20	0.10
Return loss (dB)		-60.00		-70.00
Fiber withdrawal (nm)	±50		±50	
Vertex offset (µm)	50		50	
Temperature (°C)	-40 to +75		-40 to +75
